

KHADIJA L. FRANKLIN

Solutions Engineer | Chemistry + Cosmetic PLM Software | Demos, Implementation & AI Automation
New York, NY • 202-257-6741 • khadija@khadijafranklin.me • [linkedin.com/in/khadija-franklin-nyc](https://www.linkedin.com/in/khadija-franklin-nyc)

SUMMARY

Chemist and cosmetic PLM specialist with 7 years supporting technical sales, leading client implementations, and building AI-powered tools. Combines analytical chemistry, cosmetic formulation training, and web development to connect with R&D chemists, regulatory teams, and IT alike.

SKILLS

Solutions & Pre-Sales: Technical demos, discovery, competitive analysis, trade shows, implementation, client training

Technical: SQL databases, REST APIs, data migration and validation, software testing, HTML/CSS/JavaScript, Python, Ruby

AI: Claude, prompt engineering, AI workflow automation

Domain: Cosmetic formulation, INCI (EU/US), GHS/SDS, FDA cosmetic labeling (21 CFR 701.3), cGMP

Lab: HPLC, UPLC, GC, MS, FTIR, UV-Vis, NMR, AAS, TLC, Karl Fischer

EXPERIENCE

Coptis Software Solutions | Harrison, NY

Sep 2019 – Present

Customer Success Manager

May 2022 – Present

Project Manager

Sep 2019 – May 2022

Pre-Sales & Demos

- Support the sales team with technical expertise during product demos, answering prospects' questions on formulation data, regulatory workflows, and platform configuration.
- Demo the platform at trade shows including CosmoProf North America, generating **50+ leads**.
- Produced a competitive analysis of Coptis versus a key competitor to sharpen sales positioning.

Implementation & Technical

- Lead technical implementation for every new client since 2019: run kickoff calls, scope parameter and data files, and initialize client raw material and formula data into the platform's SQL database.
- Guide **all clients** through on-premise-to-SaaS migrations, managing both the technical transition and client communications.
- Diagnose data file, server, and database issues; escalate complex cases to the France-based engineering team and document resolutions in Sales Force.
- Resolve regulatory data questions, including EU/US INCI matching and FDA labeling requirements; participate in software testing and maintain user documentation.

Tools Built

- Built an account management dashboard with Claude AI, cutting the team's account-admin time by **40%**.
- Built an internal SDS authoring tool that generates 16-section GHS/OSHA-compliant Safety Data Sheets from platform, PubChem, and ECHA data.

Training & Account Growth

- Deliver a 16-hour multi-session training program online and onsite across the US and Canada, plus mastery sessions, seminars, and webinars.
- Manage **70+ US accounts (\$1.9M ARR)**; lead at-risk renewals and win-back campaigns, and upsell and cross-sell software licenses and database modules.

Perrigo | New York, NY

May 2018 – May 2019

Chemist

- Analyzed pharmaceutical finished products and stability samples under cGMP using HPLC, UPLC, GC, FTIR, TLC, and Karl Fischer; managed data in LIMS, Empower, and VelQuest.

GLO Science | New York, NY

May 2012 – May 2016

Operations Manager

Sep 2014 – May 2016

- Found formula errors in warehouse billing calculations and recovered **\$300,000+** in incorrect charges, credited with saving the company from insolvency.
- Guided product and packaging development for teeth-whitening products; managed purchasing, inventory, forecasting, and new product launches.

Customer Service Manager

May 2012 – Sep 2014

- Redesigned the support process and trained representatives; stopped the majority of website fraud and recovered the company's losses.

Perfecseal (a Bemis Company) | Philadelphia, PA

Jul 2011 – May 2012

Quality Control Technician

- Tested medical and pharmaceutical packaging for integrity, strength, and microbial barrier performance; issued non-conformance reports that drove vendor corrective actions.

EDUCATION & TRAINING

B.S., Chemistry | Fairleigh Dickinson University, Teaneck, NJ

2017

B.A., Chemistry, Minor in French | Temple University, Philadelphia, PA

2010

Full-Stack Web Development | Dev Bootcamp, New York, NY

2017

Cosmetic Formulation Training (3 programs) | Element 44 Inc. (Perry Romanowski)

2013 – 2016

AFFILIATIONS & VOLUNTEER WORK

- **Webmaster, ITIAH Angels:** built and maintain the organization's website, including events and donation pages; manage member email accounts.
- **Member and Volunteer,** Society of Cosmetic Chemists
